Item 4. Operational activities of the United Nations for international development cooperation

At the Council's substantive session of 1996, the high-level meeting of the operational activities segment will be devoted to consideration of strengthening collaboration between the United Nations system and the Bretton Woods institutions in the areas of social and economic development at all levels, including the field level (Council resolution 1995/50). The Council will have before it a note by the Secretariat on that topic (see also sub-item (b) below).

(a) Follow-up to policy recommendations of the General Assembly

At its substantive session of 1995, the Council, in its resolution 1995/50, decided that the themes for the working-level meetings of the operational activities segment should include:

(a) Field-level coordination issues relating to the follow-up of the theme of the high-level segment of the previous substantive session of the Council;

(b) Issues relating to the budgets of the United Nations funds and programmes, with the aim of:

(i) Promoting greater budgetary transparency with respect to resources, including administrative costs of different funds and programmes;

(ii) Addressing the linkages between administrative expenditure and programme expenditure;

(iii) Ensuring the most efficient use of resources;

(iv) Promoting budgetary transparency with respect to resources mobilized by developing countries for operational activities for development of the United Nations, including resources from the private sector;

(c) Issues relating to:

(i) Strengthening national capacity for management and coordination of international assistance;

(ii) Improving national participation in the process of evaluation of the efficiency and effectiveness of assistance provided by United Nations funds and programmes;

(iii) Promoting greater collaboration among United Nations funds and programmes in the evaluation of their activities;

(d) Issues relating to procurement, in particular from developing countries;

(e) Issues relating to the use of national experts and local technologies;

(f) Issues relating to the priorities to be given in particular to the least developed countries and Africa.

At its fiftieth session, the General Assembly invited the Council, during the operational activities segment of its substantive sessions of 1996 and 1997, to examine the operational activities of the United Nations system with a view to ensuring the full implementation of Assembly resolution 50/120. The Assembly also stressed, inter alia, the important role of the specialized agencies of the United Nations system in transferring and facilitating the necessary technical and substantive expertise to support the national execution of United Nations-funded programmes and projects, and invited the Secretary-General, in collaboration with the heads of specialized agencies, to inform the Council of the measures taken by those specialized agencies in response to Assembly resolution 47/199, in particular as regards national execution. The Assembly also requested the Secretary-General, after consultations with the funds, programmes and specialized agencies of the United Nations system, to present to the Council at its substantive session of 1996 an appropriate management process containing clear guidelines, targets, benchmarks and time-frames for the full implementation of Assembly resolution 50/120. The Assembly also invited the Council, at its substantive session of 1996, to consider, inter alia, the issues of harmonization and administrative services, common premises and monitoring and evaluation, and, at its substantive session of 1997, to consider, inter alia, capacity-building, field- and regional-level coordination, and resources, on the basis of progress reports by the Secretary-General, including appropriate recommendations. The Assembly decided that, as an integral part of the next comprehensive triennial policy review, to be undertaken in 1998, there should be, in consultation with Member States, an evaluation of the impact of operational activities for development, and requested the Secretary-General to submit to the Council at its substantive sessions of 1996 and 1997 information on progress in that regard (resolution 50/120).

(b) Coordination of activities on a system-wide basis: strengthening collaboration between the United Nations development system and the Bretton Woods institutions in the areas of social and economic development at all levels, including the field level

In its resolution 1995/50, the Council, having recalled that, in accordance with General Assembly resolution 48/162, the role of the Council in its operational activities of the United Nations for international development cooperation segment included the provision to the United Nations system of cross-sectoral coordination and overall guidance on a system-wide basis, reaffirmed that the strengthening of the efficiency and effectiveness of the operational activities of the United Nations system in the delivery of its assistance for development required a real commitment to implementing Assembly

resolutions 47/199 and 48/162, including the need to increase substantially the availability of resources on a predictable, continuous and assured basis, commensurate with the needs of developing countries, and decided that in 1996 the high-level meeting of the operational activities segment should focus on strengthening collaboration between the United Nations development system and the Bretton Woods institutions in the areas of social and economic development, at all levels, including the field level.

In its resolution 50/120, the General Assembly took note of Council resolution 1995/50.

(c) Consideration of the reports of the Executive Boards of the United Nations Development Programme/United Nations Population Fund, the United Nations Children's Fund and the World Food Programme

In accordance with annex I to General Assembly resolution 48/162, paragraphs 21 to 30, in regard to the governing bodies of the United Nations development funds and programmes, the governing bodies of the United Nations Development Programme/United Nations Population Fund and the United Nations Children's Fund have been transformed into Executive Boards. Those Boards are responsible for providing intergovernmental support to and supervision of the activities of each fund or programme in accordance with the overall policy guidance of the Assembly and the Council, in accordance with the respective responsibility as set out in the Charter, and for ensuring that they are responsive to the needs and priorities of recipient countries. The Boards are subject to the authority of the Council and submit annual reports to it at its substantive session, which may include recommendations, where appropriate, for the improvement of field-level coordination. Each Executive Board meets in an annual session.

In annex I to its resolution 48/162, paragraph 30, the General Assembly decided that the arrangements regarding the United Nations Development Programme/United Nations Population Fund and the United Nations Children's Fund should apply to the Committee on Food Aid Policies and Programmes of the World Food Programme, and consultations between the United Nations and the Food and Agriculture Organization of the United Nations should be undertaken as soon as possible for that purpose.

By its resolution 50/8, the General Assembly decided, subject to the concurrence of the Conference of the Food and Agriculture Organization of the United Nations, that the Committee on Food Aid Policies and Programmes should be reconstituted as the Executive Board of the World Food Programme. In the same resolution, the Assembly decided that the Executive Board of the World Food Programme would comprise 36 members elected from among the States Members of the United Nations or the States members of the Food and Agriculture Organization of the United Nations, and that the Economic and Social Council and the Council of the Food and Agriculture Organization of the United Nations should elect 18 members each, as set forth in paragraph 2 of the resolution.

At its forty-eighth session, the General Assembly decided, in order to ensure an effective and efficient interaction between the Assembly, the Economic and Social Council and the individual Executive Boards, that each Board would

submit an annual report on its programmes and activities to the Council at its substantive session (resolution 48/162, annex I, para. 29). At its substantive session of 1994, the Council requested the United Nations development funds and programmes, through their executive boards, to include in their annual reports to the Council, which should have a common structure: (a) a section outlining measures taken in the implementation of the provisions of the triennial policy review of operational activities; and (b) a section on the activities and measures undertaken within the designated theme for the high-level meeting of the operational activities segment (resolution 1994/33).

In its resolution 1995/51, the Council requested the heads of the United Nations funds and programmes to report to the Council at its substantive session of 1996, through their Executive Boards, on the steps taken to further refine and effectively apply procedures for: (a) the overall impact and performance of United Nations funds and programmes and measures to ensure that higher priority was given to monitoring and evaluation activities and to the implementation of findings, in accordance with General Assembly resolution 47/199; (b) strengthening national capacity for the management and coordination of international assistance; (c) improving national participation in the process of evaluation of the efficiency and effectiveness of assistance provided by the United Nations funds and programmes; and (d) promoting greater collaboration among United Nations funds and programmes in the evaluation of their activities. In the same resolution, the Council requested the Executive Boards, in their reports to the Council, to identify specific problems, opportunities and areas in which the Council could provide cross-sectoral coordination and overall guidance on a system-wide basis, and to make appropriate proposals, which should be further analysed as a basis for recommendations to the Council, to ensure that the policies formulated by the Assembly, particularly during the triennial policy review of operational activities, were appropriately implemented on a system-wide basis. The Council also requested the United Nations funds and programmes, and invited specialized agencies, to explore the scope for improving the cost-effectiveness of administrative services, including the possible use of common administrative services at the field level, with the aim of strengthening programme delivery, and to report thereon to the Council at its substantive session of 1996.

The Council will consider the report of the Committee on the Elimination of Discrimination against Women on its fifteenth session (New York, 15 January-2 February 1996), the report of the Commission on the Status of Women on the work of its fortieth session (New York, 11-22 March 1996) and the report of the Board of Trustees of the International Research and Training Institute for the Advancement of Women on its sixteenth session. The provisional agenda and documentation for the fortieth session of the Commission were approved by the Council in its decision 1995/252.

Convention on the Elimination of All Forms of Discrimination against Women (General Assembly resolution 34/180, annex). The Convention entered into force on 3 September 1981. The Committee on the Elimination of Discrimination against

Women was established under article 17 of the Convention for the purpose of considering the progress made in the implementation of the Convention. Under article 21 of the Convention, the Committee shall report annually on its activities to the General Assembly through the Council and may make suggestions and general recommendations based on the examination of reports and information received from the States parties to the Convention.

Report of the Commission on the Status of Women. In accordance with Council resolution 1990/15, the following three priority themes are to be considered by the Commission at its fortieth session: under equality, elimination of stereotyping of women in the mass media; under development, child and dependant care, including sharing of work and family responsibilities; and under peace, education for peace.

Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action. At its fiftieth session, the General Assembly decided that the Assembly, the Council and the Commission on the Status of Women should constitute a three-tiered intergovernmental mechanism that would play the primary role in the overall policy-making and follow-up, and in coordinating the implementation and monitoring of the Platform for Action; it decided that the Commission, as a functional commission assisting the Council, should have a central role in the monitoring, within the United Nations system, of the implementation of the Platform for Action and in advising the Council thereon, and that the Council should oversee system-wide coordination in the implementation of the Platform for Action and ensure overall coordination of the follow-up to and implementation of the results of all United Nations international conferences in the economic, social and related fields and report thereon to the Assembly; and it requested the Commission to develop its multi-year programme of work for the period 1996-2000 at its fortieth session so that it could review the critical areas of concern in the Platform for Action and to consider how it could integrate into its programme of work the follow-up to the Conference and how it could develop its catalytic role in mainstreaming a gender perspective in United Nations activities, taking into account the need for a focused and thematic approach to the review of the Platform for Action and the contribution that could be made by all other functional commissions of the Council, and to forward its recommendations on the multi-year programme of work to the Council so that the Council could take a decision on the programme of work at its meeting in 1996, reviewing, coordinating and harmonizing the different programmes of work, including the reporting systems of all the commissions in the area of the advancement of women. The Assembly also invited the Council to review and strengthen the mandate of the Commission, taking into account the Platform for Action as well as the need for synergy with all other related commissions and conference follow-up, and for a system-wide approach to its implementation. The Assembly requested the Secretary-General to report, through the Commission and the Council, to the Assembly at its fifty-first session on ways to enhance the capacity of the Organization and of the United Nations system to support the ongoing follow-up to the Conference in the most integrated and effective way, including human and financial requirements. The Assembly also requested the Secretary-General to report annually to the Commission and the Assembly, through the Council, on the measures taken and the progress achieved in the implementation of the Beijing Declaration and Platform for Action (resolution 50/203).

In accordance with its resolution 1993/16, the Council will have before it the report of the Secretary-General on the revised system-wide medium-term plan for the advancement of women for the period 1996-2001. In that resolution, the Council requested the Secretary-General, in his capacity as Chairman of the Administrative Committee on Coordination, to arrange for a revision of the system-wide medium-term plan after the Platform for Action and the results of the second review and appraisal of the implementation of the Nairobi Forward-looking Strategies for the Advancement of Women had been adopted by the Fourth World Conference on Women: Action for Equality, Development and Peace, and decided that the Commission on the Status of Women, together with the Committee for Programme and Coordination, should be given the responsibility for monitoring progress on the system-wide medium-term plan for the advancement of women.

At its fiftieth session, the General Assembly requested the Secretary-General to convene a meeting of an expert group, with the participation of the Special Rapporteur of the Commission on Human Rights on violence against women and under the regular programme of the Division for the Advancement of Women of the Secretariat, to submit recommendations for improving coordination of the various efforts of United Nations agencies on the issue of violence against women migrant workers and to develop concrete indicators as a basis for determining the situation of women migrant workers for submission, through normal channels, to the Assembly at its fifty-first session (resolution 50/168).

Report of the Board of Trustees of the International Research and Training Institute for the Advancement of Women. At its sixtieth session, in 1976, the Council decided to establish the Institute as an autonomous body under the auspices of the United Nations, funded through voluntary contributions; it also decided on guidelines for the Institute (resolution 1998 (LX)). The statute of the Board was approved by the Council and endorsed by the General Assembly (Council decision 1984/124 and Assembly resolution 39/249). The Institute functions under the authority of a Board of Trustees, which reports annually to the Council.
